

HOW DO I GET WHERE I NEED TO GO?

We solve problems – every day! Since 1997, our practice has helped career college owners and executives find key employees, fix compliance and operational inefficiencies and buy and sell schools. That's what we do.

We only work in for-profit higher education and have access to the knowledge and strategic information you need to remain competitive. We have the expertise and the ability to structure solutions to meet your needs – whether it's in school mergers and acquisitions, staffing or consulting services.

We encourage you to call Tom Kube or Milo Rocha in our Scottsdale office at (480) 767-7126.

We truly understand the school business.
